NEW YORK, Mar. 11.—Three Californians have been chosen to play with Champion Larned on the tennis court which will defend the honor of America against the world in the international tennis cup tournament. They are Maurice McLoughlin, Tom Bundy and Melville Long. The selection of this trio is an acknowledgment by the Eastern experts that California's racket-wilds are superior to all the players of the East save Larned, the invincible.

HILLO LABOR UNION SCORES FILIPINOS

(Special Bulletin Correspondence.) HILLO, March 25.—Hilo Labor Union at its meeting last Wednesday night came out very strongly against the immigration of Filipino laborers passing the following resolution on the subject:

"Whereas at the opening of the sixth session of the Legislature of the Territory of Hawaii, the Honorable G. F. Aponso has introduced a resolution calling forth an investigation of Filipino laborers in Hawaii, whether they are a desirable class or not; and

"Whereas in view of the fact that the legislature has appointed a committee to look into the facts of the case and make its report to that honorable body during this session; and

"Whereas in view of the fact that when Daniel J. Keefe, Commissioner of Labor, was in Hawaii some time ago, he gave out a resume of the facts which he had gathered, through his personal investigation of said matter by commenting: 'That the Filipino immigrants as laborers are worthless as material for citizens, half-sick, dirty, etc.'; and

"In view of the fact that the above statements made by Commissioner Keefe are true in all respects, which could easily be proven by referring this matter to the Hilo jail authorities, who can show that at the present time there are more than one hundred of this undesirable class of laborers in the lock-up, who rely mainly upon the County of Hawaii to support them at the expense of the taxpayers.

"Be it resolved that the Labor Union does hereby respectfully request the Legislature of the Territory of Hawaii to take such action as it may see fit to prohibit same from entering into the Territory of Hawaii as laborers, and that a more desirable class of laborers could be imported who would Americanize this Territory."

In the graves of ancient Peru have been discovered spinning tops almost identical in shape with the ones used at this modern age. WHALE AND SHARK FIGHT DUEL TO THE DEATH

Pacific Mail Mongolia Passengers Spectators to Battle Between Sea Monsters, a Sight Seldom Equaled at Close Range—Makura Departed For British Columbia at Noon. Wilhelmina Will Carry Filipinos.

A duel to the death in which a gigantic whale and a fierce man-eating shark were the principals was a spectacle that was witnessed by perhaps several hundred persons on board the Pacific Mail liner Mongolia, as that vessel rounded Diamond Head and prepared to come to a halt near the entrance to the channel leading to the harbor this morning.

Within a half mile of the terrific struggle being enacted by the deep sea monsters, hovered a little fleet of launches and sailing craft, none of which attempted to venture in too close proximity to an area in which the two fish were lashing the seas into a foam and casting up columns of water many feet in height.

The whale was first noted, not far from the beach off Waikiki. From the decks of Young Brothers Waterway, which it looked as if the monster had gotten behind the barrier reef that lines the shores at that point.

By the time that the Mongolia, with her hundreds of passengers passed the scene, the whale was seen to lash the waters at a furious rate. Besides sending up a frequent spouting of water the whale went through a series of evolutions that were thrilling in the extreme. Time after time the big fish nearly left the water in making its frantic plunges. Immediately would rise a column of water likened to that following an explosion.

That the whale was the center of an attack of one or more sharks is generally believed by those who witnessed the spectacle. One or two powerful Japanese sampans attempted to move up within range of the fighting fish, but the contest going on proved to be too strenuous for safety. As it was one sampan had a very close shave from being swamped and destroyed by coming in contact with the lashing of the tail of the apparently maddened whale.

The last noted of the combatants was when the whale was seen to float upon the water for a few moments and then quietly disappear beneath the surface. The water in the immediate vicinity looked alive with sharks as their fins could be seen cutting through the seas at terrific rate of speed.

Makura Made Good Time.

With the government of New Zealand taking a hand in the subsidizing of mail steamship lines, the Canadian Australian steamer Makura hurried along during a portion of the voyage from Australia ports to Honolulu. Especially after leaving Suva did the fire room and engine crews make every effort towards the shortening of time to the Hawaiian islands.

The Makura arrived at her wharf shortly after six o'clock last night with a small number of passengers for this port. The freight list included shipments of 360 cases onions, 680 sacks fertilizer material, 525 sacks sulphates and several packages sundries.

The entire battery of boilers were worked after leaving Suva. The presence of Sir Joseph Ward, Premier of New Zealand on board, enroute to the coronation ceremonies at London, is believed had much to do with the hastening of the vessel to her destination. The Makura practically gained two days time.

The Makura was dispatched for Vancouver and Victoria at noon today taking mail destined for Pacific Northwest States.

Other passengers of note on board the British steamer were Hon. J. C. Findlay, Attorney General of New Zealand also proceeding to the old country and to attend the crowning of King George V.

Sir Graham Hammond Graeme accompanied by his wife and son, left the vessel at this port, to take passage to San Francisco by one of the direct liners. Commander W. Nunn, formerly of the S. S. Powerful, is returning home. A member of the South African parliament in the person of A. Poynton is a through passenger. Returning after a pleasure trip to the colonial possessions. Sir and Lady Gough are passengers in the Makura.

J. H. Hyde, an importer of automobiles with headquarters at Sydney, is on a business trip to the United States and Europe.

Alden Besse Bearing Valuable Cargo.

Much interest has been awakened among Southern California business interests over the departure of the American bark Alden Besse, from San Pedro for Honolulu. The vessel is reported as bearing a valuable shipment of products from the Southern part of the State, there being consignments of cement, asphalt, preserved meats, beer, structural iron and steel, groceries, hay, grains, citrus fruits and other items. This vessel, a familiar figure in Honolulu shipping for many years, is now operated by the Crescent Wharf and Warehouse Company. It is claimed that an association of Los Angeles business men have the matter of furnishing the cargo for the vessel.

Wilhelmina Laden With Raw Sugar.

Raw sugar to the amount of at least five thousand tons will leave the islands by the Matson Navigation liner Wilhelmina that is scheduled to sail for San Francisco at ten o'clock tomorrow morning. In addition to sugar the vessel will be supplied with 4000 cases of tinneled pineapples and a small amount of bananas. Two thousand tons of the sugar was taken on at Hilo.

The Wilhelmina will carry one hundred and thirty-five cabin passengers but there is still room for several more should the demand be made for transportation to the coast. Seventy-five steerage passengers have been booked and it is understood that a big percentage of these will be Filipinos. The Little Brown Brothers booked for transportation to the coast were taken to the quarantine station this morning, there to undergo the prescribed detention before the sailing of the steamer.

Fancy Stock for Hilo.

A number of prize bulls and ten head of males were brought to Hilo from the coast in the last trip of the Matson Navigation steamer Enterprise. The shipment of nearly four thousand tons general cargo was being rapidly discharged. The Enterprise steamed down on the present voyage under the direction of First Assistant Engineer Lann, Chief Engineer Palmer being absent on sick leave.

Columbian to Sail on Friday.

According to advices received by C. P. Morse, General Freight Agent for the American-Hawaiian line, the steamship Columbian is scheduled to sail from Seattle, for Honolulu on next Friday. The Columbian is also to bring cargo taken on at Salina Cruz, trans-shipped across the Isthmus of Tehuantepec from New York.

Gambie Returned to the Coast.

After having discharged a full shipment of lumber at Hilo, the American schooner Gambie has arrived at Port Gambie. The time of passage being nineteen days.

Hilonian on the Berth.

Castle and Cooke, the local representatives for the Matson Navigation Company advise the projected departure of the steamer Hilonian from

Seattle on April 8th, her destination being the Hawaiian islands. The Hilonian is understood will bring down a general cargo including flour, feed and merchandise.

New York Cargo Enroute.

According to a cable that has been received at the local agency of the American-Hawaiian line the steamship Alaskan with New York cargo sailed from Salina Cruz on Friday for San Francisco, Seattle and Honolulu. The Alaskan is due to arrive here on or about April 23rd.

Hawaiian Sugar at the Isthmus.

Twelve Thousand tons Hawaiian sugar leaving the last port in the islands on March 8th is reported to have arrived at Salina Cruz by the American-Hawaiian freighter Arizonan on last Thursday.

MUNITIONS OF PEACE AND WAR

Shot and shell for unruly insurgents, feed and forage for Uncle Sam's four-footed penmen in the Philippines besides quantities of merchandise and supplies for Japan, Korea and China ports of call, make up the bulk of fourteen thousand tons general cargo in the holds of the Pacific Mail liner Mongolia that is at present at the port and scheduled to depart for the Far East at six o'clock this evening.

Purser Ludwigen was the recipient of many testimonials of praise from delighted passengers who stepped ashore at Alakea wharf this morning, they all declaring that the trip down from San Francisco left little to be desired.

"Land" was the target for a lively lunch of Chicago and Omaha business men to launch a fusillade of queries concerning Honolulu as well as a number of Oriental stopping places. He satisfied the most persistent questioner that he was there with the goods when it came to the dispensing of information.

Chief Steward Donahue who is now making his second round trip in the Mongolia after years of faithful service with the Siberia and other vessels in the Pacific Mail fleet, was instrumental in the arrangement of a series of entertainments for his many guests. The Mongolia galaxy of officers have a reputation as entertainers that is hard to beat when it comes to the care and comfort of the trans-Pacific traveler.

Smooth weather prevailed all the way down. The sun concealed its smiling face of the time to save yesterday and this morning.

For Honolulu 42 cabin and 13 second class passengers left the vessel. The through list includes 163 cabin, 3 second class and 166 Asiatics in the steerage.

The Honolulu cargo amounts to 440 tons and included in this is a quantity of structural steel and iron to be used in the erection of a local pineapple cannery. Other lines of freight unloaded at Alakea wharf are shipments of paper, flour, hay and feed and some barrels of wine.

The through freight is the largest that the Mongolia has carried in many a day. As the steamer will proceed to Manila, a large amount of Philippine government and army and navy stores are included in the bulk of cargo.

For Manila the vessel is carrying 6000 tons hay. In all there is 8500 tons army and navy supplies. Asphaltum to the amount of 2500 barrels is being shipped to Manila for street improvement there. The usual shipments of leather, cotton and flour are being taken to Japan ports.

Among the important passengers are Erastus Young, formerly auditor of the Union Pacific railway, who left the vessel at Honolulu. C. W. Anderson and a party of nine Chicago businessmen will make the round trip to the Orient on the liner.

Other passengers are O. L. Garrison, director of the Missouri Pacific railway and F. S. Hanky, director of the Northern trust company of Chicago.
